

Public records of Bellingham Police Department case reports for incidents occurring at Base Camp from February 3, 2021 to February 20, 2021 reveal that for 6 out of the 19 reports, trespasses were issued for a different individual involved in each of those 6 incidents, ranging for periods from 30 days, up to lifetime. Additionally, one case report showed that an individual left Base Camp voluntarily. Two other reports involved people who were asked to leave Base Camp for the night. In another case report a trespass was requested for a person but was not issued. And for one case report a person had already been trespassed prior to the incident they were involved in.

That amounted to at least 10 people out of the 19 reports who couldn't stay at Base Camp the night of their associated case report or for periods that were potentially much longer.
