Folks here's a quick update about 210 Lottie.

Protesters anticipated that we would be cleaning up the camp today but that wasn't happening. They blocked off both ends of Lottie and lined the street. They burned flags, chased and assaulted news crews and eventually pried the doors to City Hall open. They were demanding to speak to the Mayor who was no longer in the building. They entered the building so Lt. Almer gathered teams for force protection so PW could secure the doors.

A group of about 25-30 came to the back of City Hall and engaged us, some shouted some wanted to talk but it is clear they have no intentions of leaving. Once PW was done we cleared and came back to station.

Lt. Almer did a great job talking to the protesters and Blue team did a great job of not responding to the hate that was being spewed. Also a huge thanks to WhatComm for keeping us informed of events.

Lt. Cristelli - thank you for being our liaison with the County who had rallied at muni court in case the Courthouse was compromised.

For this weekend - if the protesters keep Lottie blocked that's ok. If you get calls to 210 Lottie follow the practice you have established of having folks meet us at the station.

I will be monitoring.

Stay safe!

Flo
