Tammy,

I am checking in to inquire about the status of my public records request # 2021-963, which I submitted back on November 23, 2021. In your December 2, 2021 email response (below) you estimated it would take until February 1, 2022.

My request was narrow and only covered a date range of 9 days — and there were only 7 individuals who I named in terms of seeking email records and written records relating to my request.

As of today, I have not received any responsive records. I also have not received any communications from you informing me that there was an anticipated

extension needed, so I expect to receive records responsive to my request immediately after this inquiry.

I would also ask for any explanation from you as to why it has taken so long to complete my records request seeing as you have had ample time to do so.

Thank you.  
Regards,

Sandy Robson
